Career Objective

Third-year Computer Science Engineering student with solid programming skills and a passion for software development. Seeking an internship to apply and expand technical expertise in a collaborative environment, delivering secure and efficient solutions.

Education

Senior Secondary (10+2) - CBSE

April 2021– March 2022

Hajipur, Bihar

Percentage: 90.2

Bachelor of Engineering in Computer Science and Engineering *Aug 2023 – Jun 2027*

Chandigarh University, Punjab

CGPA: 8.63

Projects

- **Secure Real-Time Chat Application** *Jan 2025–July 2025*
 - **Tech Stack:** Node.js, Socket.IO, MongoDB, HTML/CSS/JavaScript
 - Developed an end-to-end encrypted messaging platform with real-time communication and secure room-based chats.
 - **Outcome:** Supported 50+ concurrent users with zero data breaches in testing.
- **Spotify Clone Web App** *Jan 2025–July 2025*
 - **Tech Stack:** HTML, CSS, JavaScript, Node.js
 - Created a responsive streaming UI with playback controls and dynamic playlist loading.
 - **Outcome:** Achieved full mobile responsiveness and page load times under 1 second.
- **Obstacle Detection Vehicle (Arduino)** *July 2023–December 2023*
 - **Tech Stack:** Arduino IDE, C/C++, Ultrasonic Sensors
 - Programmed a vehicle for real-time obstacle avoidance using ultrasonic sensors.
 - **Outcome:** Reduced collision response time to under 1 second, demonstrating reliable autonomous navigation.

Technical Skills

- **Languages:** C++, C, Python, Java
- **Web Development:** HTML, CSS, JavaScript, Node.js
- **Databases:** MySQL, MongoDB
- **Tools & Technologies:** Git, GitHub, Visual Studio Code

Certifications

- Microsoft Office Fundamentals (LinkedIn Learning)
- Python Programming (LinkedIn Learning)
- Introduction to SQL (Coursera)
- Foundations of Project Management (Coursera)
- Introduction Of Things (NPTEL)

Achievements & Activities

- Competed a number of coding challenges on Neo Collab
- Member of Chandigarh University coding and development clubs
